

# SPOTLIGHT ON

## Our Elementary School

### MRS. DOSCH'S SECOND GRADE

#### *Making Learning Fun!*

Our second grade teacher strives to make learning fun. That may be learning to write stories and using grammar by performing a puppet show, or students taking part in word surgery and pharmacy multiplication during her annual "Doctor Day." There is always something fun planned in second grade!

#### *Individualizing Education*

Small class sizes in all grades allow teachers to provide more individualized education. Struggling students get extra help and one-on-one time, while high-achieving students can get more advanced work to continue to provide them a challenge and academic growth.

#### *Ask Our Teachers:*

**What is your favorite thing about teaching at CTCA?**

"For me, this is a calling. I truly love my job and am excited to teach each day. I love making a difference in the lives of my students. At CTCA, I have a small class of only 10-15 students. This allows me to better give each student what he or she needs and make true connections with each child. As a teacher and a parent of a student, I see how this individualized education better helps each child learn and grow." - Mrs. Dosch
