

SPOTLIGHT ON *Our Elementary School*

FOURTH GRADE WITH MRS. ADAMS

History & Social Studies

A highlight of the fourth grade year is learning about California history and government! In addition to the in class learning and projects the students get to take part in our biennial, 3 day field trip to Sacramento and San Francisco! Students visit our state capitol, see our state government and see many historical sites that are part of our rich California history! This is such a special educational experience!

Middle Grade Milestones

The fourth grade is an important intermediate year. Students are transitioning to be more independent learners. The academic rigor increases this year and students delve deeper into topics in math and language arts. Our low student-teacher ratio allows our fourth grade students continue to receive individualized attention and allows our fourth grade teacher to create engaging lessons based on student interests that spark curiosity and promote active participation.

Meet Our New Teacher

"I am very excited to teach the 4th grade class at CTCA. The CTCA family is very close to my heart. As your 4th grade teacher, my goal is to create a positive learning environment by cultivating an atmosphere that is caring, supportive, safe, challenging, and academically robust. Having taught K-12 in general curriculum and adapted curriculum, both in New York and California, I'm excited to share new learning activities and help each student progress in all areas of their development. See you soon! God bless."
