

SPOTLIGHT ON

Our Elementary School

MUSIC AND PERFORMING ARTS

Weekly Music Classes

Our wonderful performing arts director, Mrs. Carel, teaches music and performing arts to all grades, twice a week. Students learn music theory, music history, how to reading music, singing, musical theatre, and a variety of musical instruments such as drums, ukulele, and recorder.

Performing Arts Clubs

Our Elementary School offers many after-school clubs. Some of these clubs are led by our performing arts director and include chorus, choirchimes, and dance. Some of these clubs perform at school chapel services as well as public community events.

Ask Our Teachers:

Why is music education so important at the elementary age? Learning music requires memory, attention and pattern recognition. It is a scientific fact that learning to play an instrument requires use of both halves of the brain. Studies have shown that students who participate in music education often perform better academically in other subjects like math, science, and language arts. In addition, learning music helps students to create, collaborate and celebrate diverse cultures!

How is CTCA's music program different?

Due to budget cuts, many local schools do not offer music education at all or only offer it to upper grades or for a limited time. We believe that fine arts are an important part of elementary education and all of our grades have music class a minimum of twice per week!
